**DIANA SHIPPING INC (DSX-N)**  
Transportation / Freight & Logistics Svcs. / Marine Freight & Logistics

**REFINITIV® STOCK REPORTS PLUS**

**DETAILED STOCK REPORT**  
Report Date: 2022-Jun-19

### INDICATOR COMPONENTS

**AVERAGE SCORE**  
**10**

The AVERAGE SCORE combines the quantitative analysis of six widely-used investment decision making tools: Earnings, Fundamental, Relative Valuation, Risk, Price Momentum and Insider Trading. A simple average of the underlying component ratings is normally distributed to rank stocks on a 1-10 scale (10 being awarded to the most favorable). These factors may be evaluated differently using alternative methodologies and the importance of individual factors varies across industries, market capitalization and investment styles. Additional criteria should always be used to evaluate a stock.

Indicator Component	Score
Earnings	9
Fundamental	10
Relative Valuation	10
Risk	5
Price Momentum	8
Insider Trading	NR

### OPTIMIZED SCORE

**OPTIMIZED SCORE**  
**10**

Historically, companies with an Optimized Score of 10 have tended to significantly outperform the market over the following 12-month period.

**verus** analytics

An alternative approach to equally weighting each of the six factors, independent research firm, Verus Analytics, conducted a backtest to empirically determine an optimal factor blend. Results and weighting vary across four different market capitalization categories. For large/mid cap stocks, Fundamental and Earnings historically provided the most explanatory power among the factors and are weighted heavily in the Optimized Score. Among the small/micro cap universe, Insider Trading joined Fundamental and Earnings as the most significant factors to explain returns.
